Employment History

BACHALA BALAIAH COMPANY

Jr. Engineer (Highways) (April 1999 to April 2001)

Employee: Roads & Buildings (ECRP) Department.

Project: Widening & Strengthening of Palamaner to Krishnagiri road 0.000 to 20.000 km.

- Project including the widening and strengthening of existing roadways, such as WBM Road and BT Road, were successfully constructed and performed. Expertise in enhancing infrastructure and increasing road durability for better safety and efficiency.

ROADS & BUILDINGS (ECRP) DEPARTMENT, TIRUPATHI

Jr. Engineer (Highways) (May 2001 to Dec 2001)

Project: Widening & Strengthening of Palamaner to Chittor Road.

- Proficiently managed road widening and strengthening project, encompassing WBM Road and BT Road, while overseeing quality control checks, meticulous level book maintenance, and thorough bill verification.

M/S B. SEENAIAH & CO (PROJECTS) LTD

- ***Site Engineer (Structures) (Jan 2002 to Aug 2004)***

Employee: National Highways authority of India (on BOQ basis).

Consultant: SNC-Lavalin international associated with Sheladia Associate & Consultant Pvt Ltd.

Project: Project (KU-4) contract package four laning & Strengthening.Km 0 to 23 of Bhilwara by pass & from Km 137.500 to Km 183.000 of NH-79 (Bhilwara-Chittorgahr section in Rajasthan).

- As a Site Engineer (Structures) from January 2002 to August 2004, I was involved in significant projects in Rajasthan. This included the construction of Banas River Bridge with 22 spans of 39.5 meters each, utilizing cast-in-situ PSC Box girders, POT PTFE Bearings, and Semi solid circular piers. Additionally, I contributed to the Pur Flyover Bridge with 3 spans of 25 meters each, featuring cast-in-situ PSC Voided slabs and Elastomeric Bearings. I also oversaw the lowering of Flyover 1 span by 1.8 meters using a hydraulic Jack System. These projects demonstrated my expertise in bridge construction, foundation types, and Reinforced Earth panels.

- ***Site Engineer (Highways - QA/QC Documentation) (Sep 2004 to Feb 2005)***

Employee: National Highways authority of India (on BOT basis)

Consultant: Lasa Pvt Ltd

Project: Contract package express way from Km 313+500 to 364+700 at NH-8 (Jaipur-Kishangarh section in Rajasthan)

- During my tenure as a Site Engineer (Highways - QA/QC Documentation) from September 2004 to February 2005, I was responsible for the Quality Assurance department on the BOT Contract package expressway at NH-8 (Jaipur-Kishangarh section) in Rajasthan. My duties included meticulous documentation of lab test results and site reports in accordance with NHAI Quality Assurance Manual - Appendix 2. Additionally, I conducted regular inspections at the project site to ensure compliance with quality standards.

- ***Sr.Engineer (Structures) (Feb 2005 TO January 2009)***

Employee: State highway Tamilnadu on ADB Funded

Consultant: Lasa Pvt Ltd.

Project: TNRSP-01- upgrading of roads from Vriddhachalam to Tiruvarur, Tiruvarur Bypass, Jayankondam to Kumbakonam, Jayankondam to Ariyalur and Ariyalur Bypass.

- As a Senior Engineer (Structures) from February 2005 to January 2009, I played a crucial role in the upgrading of roads in various locations, including Vriddhachalam to Tiruvarur, Tiruvarur Bypass, Jayankondam to Kumbakonam, and Ariyalur Bypass as part of the TNRSP-01 project. On-site, I successfully oversaw the construction of key structures spanning 20 kilometers, which comprised Minor Bridges with Pile and Open foundations, Abutments featuring Cantilever retaining walls, and Pretension Precast PSC Planks for superstructures, as well as Box Culverts, Slab Culverts, and Pipe Culverts.

- In the office, I efficiently managed the Structures Department, handling various tasks such as preparing drawings and Bar bending schedules, obtaining consultant approvals, drafting letters, implementing monthly progress planning and scheduling, and developing formwork designs. Additionally, I took charge of preparing and approving the monthly Structures Bill of Quantities in coordination with consultant representatives.

- ***Sr.Engineer (Highways) (Feb 2009 TO May 2009)***

Employee: Naya Raipur Development Authority.Chattisgarh.
Consultant: Sheladia Associates Inc., in association with VAX Consultants Pvt. Ltd.
Project: Construction of New Four Lane Roads (Road Nos 1, 3, 4, 5, 6, 8 & 9B) (Road Nos 2, 7, 9A, 10, 11, 12) 63km in Naya Raipur Development Area, Chattisgarh.Package No: NRDA-PHASE-1/P1 & P2.

- During my tenure as a Senior Engineer (Highways) from February 2009 to May 2009, I was actively involved in the construction of new four-lane roads, specifically Road Nos 1, 3, 4, 5, 6, 8 & 9B, as well as Road Nos 2, 7, 9A, 10, 11, and 12, covering a total distance of 63 kilometers in the Naya Raipur Development Area, Chattisgarh. In this role, I successfully oversaw the execution of Bituminous (BT) roads and various structures within the project.

CONTINENTAL ENGINEERING CORPORATION PVT. LTD

Sr.Engineer (Bridges) (Feb 2010 TO April 2010)

Employee: Hyderabad Growth Corridor Limited (A joint venture of HUDA and INCAP)
Consultant: AARVE Associates.
Project: Construction of eight lane access controlled Express Way as Outer Ring Road to Hyderabad city including one Fly Over and a Major Bridge of 122m length.

- As a Senior Engineer (Bridges) from February 2010 to April 2010, I was part of the construction project for an eight-lane access-controlled Expressway serving as the Outer Ring Road to Hyderabad city, connecting Shamshabad to Gachibowli. My responsibilities included overseeing

the casting, stressing, and grouting operations of Precast PSC-I Girders for 21 Road Over Bridges with a length of 42 meters (ROBs) each. Additionally, I managed the construction of 36 Flyover Bridges with lengths of 30 meters each, coordinating the fixing of POT PTFE bearings and launching of I-girders. Moreover, I played a crucial role in constructing a Flyover using cast-in-situ voided deck slabs.

KMC CONSTRUCTIONS LTD.

Asst. Project Manager (Structures & Planning/QA/QC) (Dec 2010 TO Aug 2011)

Employee: National Highway of Authority of India

Consultant: Roughton – Aarvee (JV)

Project: Development of Adequate Road Connectivity to Mormugao Port, Goa Project Detail: Four 4 Laning of NH-17B from Km. 13.100 to Km. 18.300 and 4 laning of Baina Road at Ravindra bhavan junction from Km 1.240 to Km 1.020 including construction of flyover cum ROB up to Gate No. 9 (Km 0.000) of Mormugao Port, Goa.

- As an Assistant Project Manager (Structures & Planning/QA/QC) from December 2010 to August 2011, I was involved in the development of adequate road connectivity to Marmugao Port, Goa. The project included four-laning of NH-17B from Km. 13.100 to Km. 18.300 and four-laning of Baina Road at Ravindra Bhavan junction from Km 1.240 to Km 1.020. Additionally, it encompassed the construction of a flyover cum Road Over Bridge (ROB) up to Gate No. 9 of Marmugao Port, Goa. In my role, I coordinated the structural works for the Flyover cum ROB, which involved the construction of double-cell Box girders (20 numbers of 33.15-meter spans) and the implementation of Pile foundations and Substructures. Furthermore, I was responsible for planning and scheduling the project activities and conducting load tests to ensure the successful execution of the project.

GRAFIX ENGINEERING CONSULTANTS PVT.LTD.

Quantity Surveyor (Aug 2011 TO Jan 2012)

- As a Quantity Surveyor from August 2011 to January 2012, I performed estimation of quantities and rate analysis for eight projects to determine realistic project costs. Additionally, I conducted detailed project report (DPR) surveys during site visits to gather essential data for the projects.

VASISHTA CONSTRUCTIONS PVT LTD.

Project Manager (Jan 2012 TO June 2020)

Employee: PWD, Uttarakhand.

Consultant: Technical Consultancy Services

Project: Construction of 360 Span RCC Prestressed Bridge over Kosi River in Ramnagar on PPP mode BOT Annuity basis, Uttarakhand.

- As the assigned Project Manager for the construction of the Kosi River Bridge in Ramnagar, Uttarakhand, my responsibilities include overseeing the following tasks:

1. Constructing a 360-span RCC prestressed bridge over the Kosi River in Ramnagar. The bridge will be built on a PPP Annuity mode.

2. Installation of 10 spans of precast PSC (Prestressed Concrete) I-Girders, each with a length of 36 meters. The total weight of the girders to be launched using a 100 MT (Metric Ton) capacity launching mechanism.

3. Construction of the superstructure, which involves creating trapezoidal section pier caps and semi-solid circular pier substructures.

4. Implementing well foundations, which will provide a stable base for the bridge piers.

5. Building five box culverts, utilizing a combination of precast and cast-in-situ methods.

6. Construction of two minor bridges, utilizing RCC T-beams and RCC solid slabs for the superstructures.

7. Undertaking Road works associated with the bridge project.

As the Project Manager, I will be responsible for coordinating and supervising these activities, ensuring the timely completion of the project while maintaining quality standards and adhering to safety regulations.

STUP CONSULTANTS PVT LTD.

Senior Bridge Engineer cum Project Manager (Mar 2021 TO May 2022)

Employee: GHMC, Hyderabad.

Contractor: M. Venkata Rao Infra Projects Pvt. Ltd.

Project's:

- Construction of 6 Lane Two-way Flyover crossing 7 Tombs Junction (Shaikpet), Film Nagar Road Junction OU Colony Junction and Whisper valley junction under Engineering Procurement and Construction (EPC)/ Turnkey Basis.

- Construction of 4 lane elevated Corridor from Road No-45 Jubilee hills to Durgama Cheruvu under Engineering Procurement and Construction (EPC)- Turnkey Basis.

The project encompasses the following salient features:

- Total of 73 spans, including 54 spans of 30m precast PSC girders and 35m to 50m variant steel composite girder spans for the superstructures.
- Construction of 72 precast trapezoidal section pier caps and 2 abutment caps.
- Construction of rectangular solid section pier and abutment substructures, totaling 74 in number.
- Installation of 74 open foundations.
- Construction of RE panels on the approach road, covering an area of 2860 square meters.
- Implementation of bituminous and non-bituminous works.
- Installation of road furniture and painting works.

Key Responsibilities:

- **Project Planning:** Collaborate with the project team to develop a comprehensive project plan, considering the specific requirements and objectives of the flyover construction. This includes identifying key milestones, activities, and deliverables.
- **Coordination and Communication:** Facilitate effective communication and coordination among the project team, subcontractors, and relevant government authorities to ensure smooth project execution.

- **Schedule Management:** Assist in creating and maintaining a detailed project schedule, closely monitoring progress, and making necessary adjustments to ensure the timely completion of the flyover construction.

- **Quality Assurance:** Collaborate with the quality control team to ensure that all construction activities adhere to the defined quality standards and specifications for the flyover construction.

- **Documentation and Reporting:** Maintain accurate project documentation, including project plans, progress reports, change orders, and other relevant records. Prepare regular project status reports for management, highlighting key achievements, challenges, and any deviations from the original plan.

- **Bridge Engineering Expertise:** Utilize your specialized knowledge as a Senior Bridge Engineer to oversee the construction of the flyover's superstructures. This includes monitoring the construction of spans, precast PSC girders, steel composite girders, pier caps, abutment caps, and other related components.

- **Construction Supervision:** Provide on-site supervision and guidance during the construction process, ensuring that all work is executed in accordance with approved plans and specifications.

- **Quality Control and Quality Assurance:** Implement rigorous quality control measures to monitor construction activities, conduct inspections, and ensure strict compliance with quality standards. Conduct quality audits to assess project performance and identify areas for improvement.

- **Road Infrastructure:** Oversee the construction of approach roads, including the installation of various road elements, such as RE panels, bituminous works, non-bituminous works, and road furniture.

- **Safety Compliance:** Ensure strict adherence to health and safety regulations throughout the project, promoting a safe working environment for all project personnel.

- **Bills Certification:** Verify and certify the completion of work milestones and deliverables as per the agreed-upon terms and conditions outlined in the contract. Maintain accurate records of contractor work completion, certifications, and recommendations for GHMC. Prepare necessary documentation and reports to support the billing and certification process.

- **Contract Management**: Effectively manage contracts by overseeing negotiations, drafting agreements, and ensuring compliance with legal and regulatory requirements. Develop and maintain strong relationships with clients and vendors to drive successful outcomes.

Madhucon Projects Ltd.

Assistant General Manager - Project coordinator (HO) (May 2022 to July 2023)

Employee: MORTH, Hyderabad.

Consultant: R&B(NH), Karimnagar.

Project: Construction of Widening to Two/four lane with paved shoulder from Km. 180.600 to Km. 223.000 on NH-63 on Nizamabad-Jagadalpur Road on EPC mode under NH (O) in the state of Telangana.

As an Assistant General Manager - Project Coordinator for the construction project key responsibilities:

- **Project Planning:** Collaborate with the General Manager and project team to develop a comprehensive project plan, outlining key milestones, activities, and deliverables specific to the widening project.
- **Coordination and Communication:** Facilitate effective communication channels between the project team, subcontractors and government authorities to ensure smooth execution of the project.
- **Schedule Management:** Assist in creating and maintaining a detailed project schedule, monitoring progress, and making necessary adjustments to ensure timely completion.
- **Budget Management:** Support the General Manager in budget planning, tracking expenses, and managing costs throughout the project lifecycle.
- **Resource Allocation:** Coordinate the allocation of resources including personnel, equipment, and materials required for the project, in coordination with the project team and procurement department.
- **Quality Assurance:** Collaborate with the quality control team to ensure that construction activities comply with the defined quality standards and specifications.
- **Documentation and Reporting:** Maintain accurate project documentation, including project plans, progress reports, change orders, and other relevant records. Prepare regular project status reports for management, highlighting key achievements, challenges, and deviations from the plan.
- **Bills Preparation & Submission to Department**: Accurately prepare and submit IPC bills, following the designated billing process, and ensure timely submission to the relevant department, complying with their procedures and requirements.
- **Contract Management**: Effectively manage contracts by overseeing negotiations, drafting agreements, and ensuring compliance with legal and regulatory requirements. Develop and maintain strong relationships with clients and vendors to drive successful outcomes.
- **Material Reconciliation:** Responsible for overseeing material reconciliation, maintaining accurate inventory records, conducting audits to identify discrepancies, and implementing corrective measures for efficient inventory management and cost-effective solutions.
